COMMENT OF THE DAY.

Labour's Choice

THERE is an element of L'good sense in the compromise resolution of the Labour Party National Executive on Gorman rearmament. For the reason that the Executive has moved away from outright support to a policy more in keeping with the present uncertainty over the German problem, it is likely to have much more appeal than the old resolution. There is no basic change in Executive's attitude; it still believes in rearmament, But when the Trade Union Congress at Brighton earlier this month demonstrated how much feeling had changed on the question, the National Executive had to rephrase its attitude in a way that would ensure the continued support of the conservative right wing and at the same time not allenate those who fear that an armed Germany will create new tensions in Europe. Now the defeat of the EDC and the forthcoming nine-nation talks in London on Germany and European defence gave the National Executive its cue: if the Governments of Europe and Great Britain have to meet to formulate new plans for West Germany's future, why shouldn't the Socialist parties of these countries meet to determine their attitude safe. on the same questions?

### Survivors Rescued: Four Other Ships

Tokyo, Sept. 27. More than 1,000 persons were feared drowned typhoon-tossed seas off Hakodate, northern Japan, this morning.

A train-carrying ferry, with about 1,200 passengers aboard, overturned last night. By mid-morning the authorities had reports of only 155 persons rescued and 422 bodies had been recovered.

The 4,335-ton ferry Doya Maru dragged her moorings at or off Hakodate, the ferry terminal port in Hokkaido, across Tsugaru Straits. She struck rocks and capsized.

The National Railways reported that four Honshu-Hokkaido ferries were sunk and six made unnavigable as a result of the storm which overturned the Doya Maru.

## No Indications That U.S. And Russia Will Break Deadlock

Washington, Sept. 26. High American officials said today that they saw nothing to indicate that the United States and Russia could break their deadlock over President Eisenhower's atoms-for-peace plan.

They anticipate that the next big test of the Soviet position in the United Nations will show no change in Russia's demands that atomic weapons be outlawed first.

The width of the American-Soviet split was revealed on Saturday with publication of all the written communications exchanged by the two countries in nine months of secret negotiation.

The United States views the | ---President's plan as a "modest' start that could lead to world disarmament if the Russians would keep step with sincere cooperation.

### Favourable Reaction To Ike's Tour

Denver, Sept. 26. The White House reported enthusiastically tonight that President Eisenhower received, from the political standpoint, unprecedentedly favourable reaction to his recent Western tour on behalf of Republican Congressional candidates.

The assistant White House Press Secretary, Murray Snyder, told reporters that in the wake of the chief executive's speeches in the northwest and in southern California there was the "best reaction" from the political viewpoint "since he took office." Mr Snyder said most of the reports coming into the summer White House were in response to the chief executive's energetic political pep-talk at the Hollywood Bowl in Los Angeles last Thursday night.

## Dulles Expecting. Good Results From London Conference RUSSIA HAWKING HER ALTERNATIVE PLAN

London, Sept. 26. Secretary of State John Foster Dulles warned Europe pointedly in a last chance tone today that it is "imperative" the nine-power conference

Mr Dulles flew in for the conference expecting "good results." Increasingly evident from a wave of reports coming with him was the likelihood that America may cut back her commitments in Europe if France balks this conference.

French Premier Pierre Mendes-France flew into London airport shortly after Mr Dulles left and announced, "I am sure it must be possible to reach an agreement here."

It is possible to make the grand slam even against a bad trump break, but it calls for the most exact technique in the play of the cards. See if you can work it out for yourself before you read on.

You must naturally win the first trick with the acc of clubs. bad trump break.

You must begin the trumps by leading to dummy's nee, If

West happens to have all your trumps, you can do nothing about it. If East has all four trumps, you must save both of your high trumps to draw trumps without loss. West discards a club on the first round of trumps and the situation is therefore exposed.

Your next step is to lead the queen of spades from dummy, and East covers with the king. You gladly ruff, since you were not quite sure whether to try to discard your losing club on a good spade in dummy or whether to try to discard dummy's losing club on one of your good diamonds.

Having catablished dummy's jack of spades, you return to dummy with the nine of diamonds in order to cash the lack of spades and discard your losing club. You can then lead a heart through East.

East puts up the ten of hearts, and you win with the queen. You next lead a diamond to dummy's ace and lead another trump back through East. This permits you to draw the rest of the trumps without loss and claim the balance of the tricks.

## KITCHEE NOWHERE LAST SEASON'S FORM IN YESTERDAY'S MATCH

By I. M. MacTAVISH

With 18 minutes of the Kitchee-Police game yesterday still to go and the score-sheet blank, left-half Cheng Kwok-kwong of the Police side was injured and received attention behind the goal. He returned to the field of play four minutes later but lie was obviously in pain and the experienced Kitchee forwards were quick to exploit the crack in the Police defence.

This was the turning point of the game which was played at Caroline Hill verterday and in an effort to cover a dangerous move down the Kitchee right-wing, centre-half Leung Wing-fai brought down Kwok Yau in the penalty area. While the MCC are battling to retain the "Ashes" in Australia in the coming months there are two interesting proposals coming up for discussion in English cricket. The player. first concerns a cup competition among the counties on similar lines to the Football Association competition.

## ONLY FIRST TWO MENHOME BEAT CYNTHIA EAGER IN CROSS-HARBOUR RACE

The ninth post-war annual Cross-Harbour Swim yesterday provided a brilliant finish to a record-shattering 1953-1954 season of the Hongkong Amateur Swimming Association.

It not only brought another splash of records when the previous best times in both the men's and women's divisions were bettered by the respective record holders, Cheung Kin-man and Cynthia Eager, but also provided one of the keenest competi-

tions in years. 237 participants completed the however, lumed on full steam 24 min. 26.4 sees (New Women's course and among them were in the last 100 yards to touch the Record). 66-year-old Siu Ting-kum of Queen's Pler wall in the time of South China and 10-year-old 22 mins, 21.5 seconds to improve Kwen Slu-lin.

Even the Colony's outstanding 18 secs. swimmer, "Man Tant" did not have things all his own way in his record-breaking feat. Swimming among the first batch of seeded swimmers, he got away to a good start closely followed by Fortuna's Wong Long-hol, and South China's Weng Shiuming, with Cynthia Eager well m their midst.

At the half-way mark, Cheung enjoyed a slight lead, but anticipating a current swam a that came in - and it was little upstream in the second helf of the course. The absence of any current put him off the course towards the firsh and, 250 yards away from home, gaining on them.

### BOWN WORLD WINNER

Brussels, Sept. 26. Belgium, showing much more initiative in attack, beat Germany, holders of the World Cup, by 2-0 in an international soccer match here today. Germany showed lack of cohesion in the forward line and uncertainty in defence.

The Belgians, who led 1-0 at half-time, were nearly always on the attack. The lively forward line with the experienced centre-forward, Coppens, a constant threat, often found plenty of time to shoot as Grman defenders stood still. But at the other end, the German forwards were inaccurate and in the second half indulged in long wild shooting.

Belgium went ahead after The Saar scorer was Emster. seven minutes. A bad clearance Reuter. by the German, centre-half, Liebrich, enabled Coppens to fasten on the ball, dribble round the defence and push it into the

## Data Processing Course By Machinery

By JOE JONES

The fast-growing usefulness of huge electronic "brains"-machines that perform the most complicated mathematical functions in fractions of seconds-is pointed up by the announcement that Harvard University will offer a new course leading to a master's degree in data processing by machine. This course, which will start in the autumn term, is the first offering such a degree in any University.

#### ONLY THE BEGINNING

Such machines, miraculous as they are, represent only the beginning of a succession of mechanical "thinking" devices, many scientists believe.

For example, suppose we we plan to visit South America and want to send out announcements to our friends. According to present procedure, we copy the names and addresses from a notebook on the envelopes. But in the future, our address book will be a speel of magnetic tape. We put a stack of blank envelopes into a machine which reads the tape. We push a button -and out come the en-

## 'Mossadeq's Evil Genius' Will Shortly Face Trial For Treason

Tcheran, Sept. 26.

Hosain Fatemi, aged 37 years, who was Dr Mohammed Mossadeq's Foreign Minister and who, according to his enemies, is "the most hated man in Iran," will face trial in Teheran shortly for treason.

No date has been yet set for the trial, but it is expected to open during September.

## Judge's Ruling In King Case

Counsel Given Right Of Audience

Right' of audience oppose "the rule nisi being made absolute was granted. to Counsel for Mr J. J. O. King by Mr Justice Reynolds in the Supreme Court this morning.

His Lordship on September 17 made, on the application of Mr A. J. Clifford, Counsel for Mr M. W. H. Seymour, Director of Geo, Falconer and Co. (HK) Ltd. a rulo nisi returnable lost Thursday, to ask the Magistrate, Mr Poon Yan-hol to show cause why he should not make amendments to his case stated concerning a charge of fraudulent conversion against Mr. King.

Poon had found King had no answer on the charge and an appeal, by way of a case stated, is now pending.

In granting Mr King right of sudience, Mr. Justice Reynolds this morning ruled that although this was not in his opinion an application for an order for mandamus, which would therefore introduce the English practice, nevertheless his Lordship should have regard to the English principle that on any order in the nature of a mandamus a person who was vitally interested by his decision should be heard unless Section 110 of the Magistrates Ordinance was clearly to the contrary.

#### USE OF WORD

His Lordship held that the use of the word "respondent" in Section 110 indicated an intention that the other party should be heard and; he was dictofore of the opinion that, this right was one to address the Court on any relevant point and not limited to the points | day or two Chris was viving raised on behalf of the rough.
